	COMPLETED ON	YYYY - MM - DD	(Date of Report) AS SET OUT ELSEWHERE IN THIS REPORT, THIS REPORT IS SUBJECT TO ASSUMPTIONS AND LIMITING CONDITIONS, THE VERIFICATION OF WHICH IS OUTSIDE THE SCOPE OF THIS REPORT.

SCOPE

The scope of the appraisal encompasses the due diligence undertaken by the appraiser (consistent with the terms of reference from the client, the purpose and authorized use of the report) and the necessary research and analyses to prepare a report in accordance with the Canadian Uniform Standards of Professional Appraisal Practice (CUSPAP) of the Appraisal Institute of Canada. The following comments describe the extent of the process of collecting, confirming and reporting data and its analyses, describe relevant procedures and reasoning details supporting the analyses, and provide the reason for the exclusion of any usual valuation procedures.

The appraisal issue that is the focus of this engagement has been discussed and defined with the client, the work required to solve the issue planned, and the necessary market data acquired, analyzed and reconciled into an estimate of market value in a manner typically expected in a "form" report. The specific tasks and items necessary to complete this assignment include a summary of the following:

1. assembly and summary of relevant information pertaining to the property being appraised, including listings within one year and acquisition particulars if acquired within three years prior to the effective date of the appraisal;
2. Source of interior information
3. assembly and summary of pertinent economic and market data;
4. a summary of land use controls pertaining to the subject property;
5. a summary of "Highest and Best Use"
6. a discussion of the appraisal methodologies and procedures employed in arriving at the indications of value;
7. inclusion of photographs, maps, graphics and addendum/exhibits when deemed appropriate; and
8. reconciliation of the collected data into an estimate of market value at the effective date of the appraisal.

DEFINITION OF MARKET VALUE: The most probable price, as of a specified date, in cash, or in terms equivalent to cash, or in other precisely revealed terms, for which the specified property rights should sell after reasonable exposure in a competitive market under all conditions requisite to a fair sale, with the buyer and seller each acting prudently, knowledgeably, and for self-interest, and assuming that neither is under undue duress.

Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: buyer and seller are typically motivated; both parties are well informed or well advised, and acting in what they consider their own best interests; a reasonable time is allowed for exposure in the open market; payment is made in terms of cash in Canadian dollars or in terms of financial arrangements comparable thereto; and the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

All data considered appropriate for inclusion in the appraisal is, to the best of our knowledge, factual. Due to the type of property being appraised and the nature of the appraisal issue, the findings have been conveyed in this "form" format.
See addenda.

Any such conditions that were visibly apparent at the time of inspection or that became apparent during the normal research involved in completing the report have been noted in the report. It is an assumption of this report that the property complies with all regulatory requirements concerning environmental, chemical and biological matters, and it is assumed that the property is free of any detrimental environmental, chemical legal and biological conditions that may affect the market value of the property appraised. If a party relying on this report requires information about or an assessment of detrimental environmental, chemical or biological conditions that may impact the value conclusion herein, that party is advised to retain an expert qualified in such matters. The author expressly denies any legal liability related to the effect of detrimental environmental, chemical or biological matters on the market value of the property. - The analyses set out in this report relied on written and verbal information obtained from a variety of sources the author considered reliable.
